## CONSENT REQUIRED – ST GEORGES COLLEGE, WEYBRIDGE

### Reminder:

We are delighted to share that this half term we will once again continue our long-standing collaboration with St George's College, Weybridge—a partnership that has always been a truly enriching experience.

Throughout the half term, Upper Sixth Form students will visit the Reception children every Thursday morning for eight weeks to lead RE learning as part of their A Level course. These sessions will be supported by all Reception staff and accompanied by a St George's teacher. Each week will feature singing, games, and creative activities.

### Thursday 12th March - Final Celebratory Mass

The programme will conclude on Thursday 12th March, where the Reception children and staff are invited to a special celebratory Mass at St George's College in Weybridge.

Reception staff and children will travel together by coach, and the children will perform one of the songs they have learnt, in front of the other local Catholic schools who also share the partnership. Once the Mass is finished, the children are invited into the canteen for a celebratory juice and Easter chocolate treat.

In order to arrive on time, the children will need to be in school at 8.30am. We will leave school promptly in the morning and then arrive back to school in time for lunch, as normal. You will not need to provide a snack on this day.

In order for your child to attend, please provide consent here:

# Next week, we will be learning...

## LITERACY

In Phonics, we will be learning the sounds:

- 'y' as in yellow
- 'z' as in zebra

Please do spend some time looking at these in your phonics practise book.

## PERSONAL, SOCIAL AND EMOTIONAL DEVELOPMENT

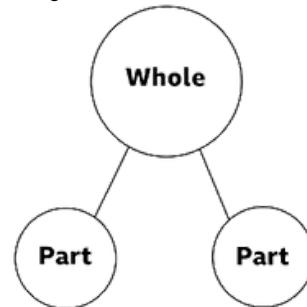

We will be discussing oral hygiene and the importance of looking after our teeth, brushing them and keeping them clean and healthy.

## MATHS

The children will be:

- Using cubes and a part whole model to find number bonds to 5.

## RE

Galilee to Jerusalem

I know that Jesus welcomes everyone.

## UNDERSTANDING THE WORLD

This half term, our topic will be 'People Who Help Us!'

Next week, our focus will be on dentists and keeping our teeth clean and healthy. We will be:

- Using tooth brushes to practise cleaning plastic teeth.
- Using roleplay to act out the role of a dentist
- Discussing healthy and unhealthy foods for our teeth
- Teeth staining experiment using eggs and Coca-Cola.
- Having a visit from the team at Abbeymead Dental Practice in Chertsey

Have a lovely weekend!
