

Year 2 Homework. Handed out Monday 5<sup>th</sup> February. Due Monday 12<sup>th</sup> February

Missing number at the beginning?  
Do the **opposite** and you are winning.

Missing number in the middle?  
Do a subtraction, and solve the riddle.

$$\underline{\quad} - 25 = 50 \qquad 50 + 25 = \underline{\quad}$$

$$\underline{\quad} + 11 = 40 \qquad 40 - 11 = \underline{\quad}$$

$$64 - \underline{\quad} = 24$$

$$64 - 24 = \underline{\quad}$$

$$17 + \underline{\quad} = 30$$

$$30 - 17 = \underline{\quad}$$

$$\underline{\quad} + 18 = 92$$

$$61 - \underline{\quad} = 32$$

$$97 - \underline{\quad} = 54$$

$$\underline{\quad} + 45 = 94$$

$$31 + \underline{\quad} = 54$$

$$\underline{\quad} - 49 = 29$$

Year 2 Homework. Handed out Monday 5<sup>th</sup> February. Due Monday 12<sup>th</sup> February

Which 3D shape has five faces? Tick the correct shape.

Draw one line of symmetry on the square.

41 people are watching a film. Eight people leave before the end. How many people watch the film until the end?

Insert a number to make these calculations correct.

$$34 < \square$$

$$25 > \square$$

What is the total?

Write two different ways of making 10p using 1p, 2p and 5p coins.

$$3 \times 4 = 12$$

$$4 \times 3 = 12$$
