<b>mammal</b>	an animal with fur or hair on its body	
<b>carnivore</b>	an animal that eats other animals	
<b>herbivore</b>	an animal that eats plants	
<b>omnivore</b>	an animal that eats plants and other animals	
<b>amphibian</b>	an animal that can live on land and in water	
<b>reptile</b>	an animal with dry scales on its body	
<b>adult</b>	a fully grown human	
<b>baby</b>	a newborn human	
<b>shelter</b>	a place that gives protection from weather and danger	

Basic Needs for Survival

**Food**  
Animals must eat food to survive. They may be **carnivores**, **herbivores** or **omnivores**.

**Air**  
All animals breathe. There are a variety of ways animals breathe.

**Shelter**  
Animals need shelter to help keep them safe.

**Water**  
All animals need water to survive.

**Direct Heat**  
Many **reptiles** need direct heat from the sun.

Humans

 Humans are also animals. They are **mammals**. They have the same basic needs for survival as other **mammals** but may have them met in different ways.

Babies will need an adult to provide them with food, water and shelter until they are older.
