

Year 5 Geography Knowledge Organiser - Trade

Key vocabulary

Import: to bring goods into a country for sale

Export: to send goods to another country for sale

Trade: buying or selling goods or services

Raw materials: materials that have not been changed or processed

Man-made: made by people rather than found in nature

Native: coming from a particular place

Country of origin: the country where something or someone comes from

Biomes: areas of the planet with a similar climate and landscape, where similar animals and plants live

Climate: the long-term pattern of weather in a particular area

Locally sourced ingredients: items that have been purchased nearby from a farmer, fishmonger or any other fresh produce creator

Sustainability:
In this topic we are going to learn about environmental sustainability. This means making sure that we do not use up the earth's resources and they are left for future generations.

Where does all our stuff come from?

WHAT IS FAIR TRADE?
